Dedication '79

In 1969 Sequoia got a new Vice Principal. Coming to us from the Seattle School District where he had been a Vice Principal, Music Director and Director of the Seattle All-School Band, he contributed new ideas and concepts.

Being Vice Principal always casts one as the bad guy, but those students who had the opportunity to get to know him realized that in his case at least it was not "type-casting." For many years he has directed the course of Student Council and advises many other student groups — each time giving students not only guidance, but an opportunity to develop their own abilities of leadership and organization.

Sequoia has not been his only area of service. Besides the many hours spent at school, he also has contributed his time and talents to Scouting, his church, the Masons and worked to help rehabilitate ex-convicts for re-entry to society.

Despite all of this, he has also pursued his many hobbies which include amateur radio, electronics, gardening, restoring old cars (don't get him talking about Packards), and has become an accomplished woodcarver.

Now after many years of service to school and community, he is looking forward to retiring and becoming a gentleman farmer after building a new home up north. This 1979 issue of THE KLAHOWYA is dedicated to a friend who is now leaving us, Charles Shearer, Vice Principal of Sequoia Junior High. We extend best wishes in his future plans and yet it is with sadness that we must say Klahowya for the last time.

D. Bergum, KLAHOWYA advisor

CLAUDIA THOMAS
PRINCIPAL

My first year as Principal of Sequoia Junior High has been exciting, challenging and rewarding. I consider this to be one of my better years in education. The support and cooperation of students, parents, and staff are just outstanding.

The Sequoia community is united for a common goal of providing a positive learning climate for all students, and active participation among students, parents and staff; and I feel this goal is being attained.

Most of you will be here next year to continue our current goal and work towards new challenges, but to the ninth graders, those going on to senior high, I say, "Thanks for your help in making Sequoia #1."

To those returning next year, keep up the good work and make next year the best year of your life.

In future years as you look through this Klahowya, may it bring pleasant memories of the initiation of our "Spirit Points," Assertive Discipline, Fun Nights, play courts, fund-raising for a student lounge, the Constitutional Convention and many other exciting experiences we all enjoyed during this year 1978-79.

Good Luck,

Claudia B. Thomas, Principal
Sequoia Junior High School

CHARLES F. SHEARER

_____

Lines_____

Of the many varieties of lines, all end except the time line, beginning in iniquity and extending into the distant future. Your life and my life are a part of this line, each making a contribution.

As we come to the end of each journey, it is well to pause and look back on the accomplishments made possible by the many fine people along the way. My contribution has been in education. My reward has been seeing young people develop to their full potential. There have been bright spots and a few disappointments.

When you end your journey, may you look back, as I, with gratitude and thanks to the many fine people and friendships developed along the way.

Dear Mom and Dad,

Hi! How are you? I'm fine. Thanks for the letter. I'm glad you're having a good summer. Guess what? I'm in Greece! I'm staying with my friend Peter and his family. They live in a beautiful house on the beach. We go swimming every day. The weather is great and the food is delicious. Yesterday we went to the ancient ruins of Delphi. It was amazing! I took lots of photos. I'll show you when I get home. Peter's parents are very nice. They're taking us to the mountains next week. I'm looking forward to it. Peter's English is good, but my Greek is terrible! I'm learning a few words every day.

Love,

Sue
